Recommended Actions

Priority improvements to recover revenue and catalog health

#	Action	Details
1	Address Availability Gaps	6 SKUs are below 80% availability. Review inventory levels, replenishment timing, and fulfillment blockers for low-availability SKUs.
2	Recover Top Revenue Decliners	Focus first on high-revenue SKUs with steep YoY declines: ARGD1057, FRRB1329, ATGD5370, ATGD5369, and ARGD1058.
3	Improve Required Tag Coverage	Every reviewed SKU is below the 90% required-tag benchmark. Complete missing required attributes to improve discoverability and filtering.
4	Reverse Visit Declines	2 SKUs have lost more than 20% of visits year-over-year. Review pricing competitiveness, imagery, and merchandising visibility.
5	Protect Catalog Quality	WLAO4493 needs image coverage remediation, while ARGD1057 should be reviewed for elevated incidence rate and customer issue exposure.
